

PureShip BilgeKleen® Polisher

- > Lloyd's Register Type Certified to discharge under 5 ppm
- > Retrofitted as polishers post MEPC 60(33) 107(49) Bilge OWS units
- > Makes any OWS perform to IMO MEPC 107 (49) standards
- > Achieves less than 5 ppm overboard discharge - no sheen
- > Does not require additional pump - less than 5 psi operating pressure requirement
- > Available in standard size ranges: 1m³/h - 10 m³/h
- > Deployed in over 200 ships
- > Does not affect certification on existing 60(33) or 107(49) bilge units
- > Supplied as individual vessels or skid mounted
- > Provides performance equal to or better than most existing MEPC 107(49) Bilge OWS
- > Lower Cost than 107(49) Bilge Systems
